TO RACE WITHOUT CORNELL.

HARVARD AND YALE INSIST ON ROWING AT NEW-LONDON.

AN INTERESTING CORRESPONDENCE BETWEEN THE CREW CAPTAINS GIVEN OUT

Cambridge, Mass., Jan. 17.-The correspondence between Harvard, Yale and Cornell on the question of the time and place of the annual boat race was made public this evening. It confirms the reuniversities. From the letters it is clear that Harvard and Yale are determined to row at New-London, and are not desirous of meeting Cornell at any other place. Unless, therefore, Cornell decides to come to New-London, in which case the date might be adjusted to suit her, it may be announced definitely that Harvard and Yale will row at New-London on Thursday, June 29. The letters

follow:

Cambridge, Mass., December 1, 1898.

S. L. Fisher, Captain Cornell Navy, Ithaca, N. Y.
I have seen Mr. Allen, of Yale, and told him the
gist of my conversation with you. We both feel
very positive against entering any race with a large
number of crews. We are both of us exceedingly
anxious to arrange a race with you, and we should
both be equally sorry if the pleasant relations that
have existed for the last two or three years were
to be broken off. I speak for Yale in this matter,
for it was decided that Harvard should arrange all
the negotiations for a triangular race in 1899.

Neither Harvard nor Yale can row a race before
June 29, owing to conflictions with college dates
and rules; and since we want this race to take
place as soon as possible, we should like to row
on Thursday, June 29, thus giving two days leeway
in case of postponement.

We also fayor New-London rather than Pough-

and rules, and spossible, we should like to row place as soon as possible, we should like to row on Thursday, June 29, thus giving two days leeway in case of postponement.

We also favor New-London rather than Pough-keepsle, because the training facilities are better there than at Poughkeepsle, and, further, I believe that the course at New-London, though not straight, is rather fairer than at Poughkeepsle. I also think that if you were to row two races New-London would be a better place to row them than at Poughkeepsle, for the men always seem to recuperate much faster at New-London.

Therefore, Yale and Harvard wish to know if Cornell would like an invitation, with the intention of accepting it, to enter a triangular race to be rowed over the four-mile course at New-London on June 23, 1898. Since we wish to make definite arrangements as soon as possible, we should like to have an answer to this letter by December 18, 1898. In behalf of Yale and Harvard, I hope that you will find your way clear toward accepting such an invitation. Sincerely yours,

L. HIGGINSON, Jr., Captain Harvard Varsity

Crew.

Ithaca, N. Y., December 8, 1898.

F. L. Higginson, jr., captain Harvard crew, Cambridge, Masse
My Dear Sir; In answer to your letter of the 1st inst., I would say that it is with great regret that Cornell could not accept such a proposition, for several reasons which I have explained to you. We are anxious to arrange a race, as you know. Hoping we may reach an agreement, I am, sincerely yours.

S. L. FISHER. Cambridge, Mass., January 16, 1899.

Fisher, Captain Cornell Navy, Ithaca, N. Y. 8. L. Fisher, Captain Cornell Navy, Ithaca, N. Y. My Dear Sir: A meeting of the representatives of Yale and Harvard boat clubs was held in Boston on January 16, to consider the arrangements for the annual race, which is to be rowed in accordance with the five-year agreement between the two universities. We feel extremely sorry, because of the good record which your crews have so worthily maintained, that Cornell cannot see its way clear to join us in this race at New-London on June 29.

worthily maintained, that Cornell cannot see its way clear to join us in this race at New-London on June 29.

The course at Poughkeepsle was considered as a possibility, but both we and our advisers believe the course at New-London to be fairer.

If you should reconsider your decision not to accept the invitation to join us at New-London we should be glad to have you with us. We should, also, if it is possible, readjust our date to suit you. At present it is arranged to meet the conveniences of examinations and the requirements of the two faculties, and it cannot well be placed earlier than the 28th of June.

We shall proceed with our arrangements, hoping that Cornell may add to our pleasure by deciding to make one in a triangular race with us. With the best wishes of Yale and Harvard I am, sinerely yours.

SHOOTING.

MONTHLY SHOOT OF THE CARTERET GUN CLUB ON THE HEMPSTEAD PLAINS.

The monthly shoot of the well-known Carteret Gun Club, of Garden City, was held yesterday af-ternoon on the Hempstead Plains. The wind was blowing from the northwest at a lively clip, and as a result all the birds were fast. The match was won by Robert A. Welch, one of the crack shots of the club. His score was 46 birds killed and 4

misses, the four birds dying out of bounds.

Captain A. Money, the veteran shot of the club, captured second prize, killing 45 out of his 50 birds. Of Captain Money's birds only one died out of bounds. Foxhall P. Keene and Mr. Jones tied for third place, each with a net score of 4 killed and 9 misses. The contest was for fifty birds each, at thirty yards' rise, and also thirty yards' boundary. None of the men were handicapped, all shooting from the thirty-yard line.

A number of enthusiasts were present and watched the sport with much interest. As a whole the birds were about the strongest lot that have ever been shot at for some time at Garden City. The summary:

No trouble is more common or more misunder-stood than nervous dyspepsia. People having it think their nerves are to blame, and are sur-prised that they are not cured by nerve medi-cines. The real seat of the mischief is lost sight of. The stomach is the organ to be looked after. Nervous dyspeptics often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. The Wanamater Store The Why Of It

THE one million pieces of Muslin Underwear prepared for this sale will prove insufficient to meet the demands of our Public. It is the largest quantity ever prepared for such a sale. It is nearly twice the quantity ever offered by ourselves. And yet it will prove insufficient. Why?

First-Because our principle is to supply underwear just as good as can be made,not just as cheaply as we can. We don't believe in skimping. We don't believe in using trashy trimmings. We don't like raw seams and long-legged stitching, although all these are money savers,—in the beginning. We make this underwear just as you would make it for yourself, if you had the time. That's half the reason why.

Second-Because we know how to buy, as well as how to make, and we are so placed as to be able to get this goodness cheaply. Not by diluting the goodness, but by taking advantage of time, locality and the power of money. No such underwear as ours is sold so cheaply, nor are there lower prices than our lowest prices.

Hence a selling that has never been equalled since underwear became an article of retail commerce.

We show you about 500 More of the yards of all sorts of tap-Upholstering estry, damask, brocade and brocatelle furniture coverings. They in handsome low, squat shapes-are disare in short pieces, but what do you care for played for your choosing this morning at

that,—they are long enough to use! We offer most of them at half price, some few at one-third price, some other few of the very finest goods at two-thirds prices.

Further, we will do the labor of recovering at its actual cost to us. There's a saving in that. Finally, we'll send a man to your house to look at your furniture and make suggestions and estimates.
